

HEALTH & SAFETY, QUALITY & ENVIRONMENT POLICY

Alternate Constructions is a fully qualified licensed commercial building contractor, established more than fifteen years in Project Management and Construction of base build systems i.e. ceilings, partitions, carpentry and external cladding systems. Alternate is able to offer the Client the continuation of its quality service when acting in the capacity of Principal Contractor on internal fitout and refurbishment projects

Alternate Constructions undertakes business with integrity, honesty and fairness at all times embracing diversity, trust and teamwork to deliver a superior product.

Health, Safety, Quality and the Environment is our priority and our goal is zero injuries. We seek continual improvement and manage risk ensuring employees, subcontractors and the public are properly protected by:

- An assurance process entailing regular audits, inspections, registers, reviews and reports measuring compliance with our Business Management System
- Compliance with statutory legislation, Standards and Codes of Practice and where practical exceeding requirements
- Thorough Induction into the business and necessary training and supervision to obtain control of workplace hazards, prevention of unsafe practices and negative impact to the environment
- Provision and maintenance of safe plant, tools and equipment
- Periodical review of our policies and procedures in consultation with employees and sub-contractors with direct involvement and knowledge of the tasks to maintain their relevance
- Effective communication of our Business Management System with our people and contractors to ensure a balance of desired Client expectations with costs, supply and skills.

To implement this Policy, all Alternate Constructions Management, employees and subcontractors are expected to conduct their work in a manner that does not compromise our policies and goals for health and safety, quality and the environment.
